Career Objective:

Computer Science undergraduate with hands on experience in machine learning and full-stack web development. Built real-time applications using Python, OpenCV, and Flask, with a strong interest in AI-driven solutions. Seeking an internship to apply and enhance practical skills.

Technical Skills:

- Languages: Python, JavaScript, HTML, CSS
- Frameworks & Libraries: Flask, OpenCV, Scikit-learn
- Databases: MySQL, Firebase Firestore
- Tools: Git, GitHub, VS Code
- Concepts: Machine Learning, REST APIs, Authentication, CRUD

Projects:

➢ **Sign Detect AI – Real-Time Sign Language Detection**

Tech Stack: Python, OpenCV, Media Pipe, Scikit-learn, Flask, NumPy

- Built a real-time sign language recognition system using OpenCV and Media Pipe, achieving 93% accuracy in detecting 14+ hand gestures with low-latency live predictions.
- Developed an end-to-end ML pipeline by extracting 21 hand landmarks (42 features) and training a Random Forest classifier, achieving high prediction consistency.
- Deployed using Flask with live video streaming and REST API integration, enabling real-time predictions and scalable system design.

➢ **Student Dropout Prediction System**

Tech Stack: Python, Pandas, Scikit-learn, Matplotlib

- Developed a machine learning model to predict student dropout risk using features like attendance, marks, and study hours.
- Implemented classification models (Logistic Regression, Decision Tree) and evaluated performance using accuracy and confusion matrix.
- Built a simple dashboard to visualize risk levels and provide early warning indicators.

➢ **Pet Health and Care Website (Internal Hackathon)**

Tech Stack: HTML, CSS, JavaScript, Firebase, Gemini API

- Built a responsive website providing pet health tips, and care information.
- Integrated Firebase for backend services.
- Received participation certificate for hackathon project.

Education:

- Bachelor of Engineering – Computer Science Engineering (Artificial Intelligence & Machine Learning)
  Rao Bahadur Y Mahabaleswarappa Engineering College, Ballari Cantonment [2023-Present]
- Senior Secondary High School - PCMB, Jindal Pre University College [2021-2023]
- Secondary High School , Jindal Adarsh Vidyalaya [2020-2021]

Achievements and Certifications:

- AWS Generative AI for Leaders Issued by Great Learning
- Google Data Analytics Professional Certificate Issued by Coursera
- Foundations of Cybersecurity Issued by Coursera
- HTML, CSS, and JavaScript for Web Developers Issued by Johns Hopkins University (Coursera)
- Participated in Internal College Hackathon and developed a functional web-based solution under time constraints.
